### □ ***BIOGRAPHICAL OVERVIEW***

Mr. MEIRA has more than 20 years of direct work experience in the management systems field.

This includes 8 ½ years dedicated specifically to the aerospace industry, working for the Brazilian Technical Aerospace Center from 1986 to 1995, and more than 12 years directly involved in management systems teaching and training.

His experience includes a variety of management roles in quality, manufacturing, and administration, as well a strong experience with Brazilian National Quality Award Criteria.

Mr. MEIRA's background includes courses in France, United States, United Kingdom and Japan.

He is an ASQ Senior Member, Certified Quality Auditor and Certified Manager of Quality / Organizational Excellence. Rogério is also a former ASCERT and Brazilian Technical Aerospace Center Certified Quality Systems Auditor.

Currently, Rogério is focusing his efforts on providing training and support in the development of ISO 9000, ISO 14000, OHSAS 18000, SA 8000 and SAE AS 9100 / NBR 15100 based Management Systems.

Mr. MEIRA is also responsible for the development of methodologies for the self implementation of Quality and Environmental Management Systems for Brazilian Small and Medium Companies.

ATSG (the Company directed by Rogério) is an INMETRO (Brazilian Accreditation Authority) Accredited Training Body and had a training approved by RAB (ISO 9000 : 2000 Transitional Training for Auditors).

In 2001 ATSG was the first Brazilian Organization to have a Lead Assessor ISO 14000 training course accredited by INMETRO.

In 2004 ATSG became the first Brazilian Organization to have courses related to SAE AS 9100 / NBR 15100 accredited by INMETRO. Nowadays ATSG is the only Brazilian training provider with accredited courses in the aerospace field.

Rogério is also a published author, and has developed and presented numerous seminars on ISO 9000 / ISO 14000 / OHSAS 18000 / SA 8000 and SAE AS 9100 – NBR 15100 Management Systems implementation, documentation and audit.
